DISPLAY

NAPPER VALLEY

Bodoni Moda — high contrast, no inscriptional serifs. Set in capitals, tracked wide, never below 12 pt.

SUPPORTING

MOUNT TAMBORINE

Jost Light in spaced capitals for locality lines, labels and small print.

ARTWORK

Every mark is outlined vector — no live type, no font licence travelling with the files, nothing for a supplier to substitute.

Heirloom Ligature

The original, tightened — N, V and E overlapped beneath one hairline swash.

Primary signature: front-of-house signage, stationery, wine labels, foil.

On the estate

Garden umbrella

Estate Seal on alternate panels.

Cap

Monoline embroidered on the crown.

Canvas tote

Band printed burgundy on natural.

Coaster / wax seal

Patch reversed into claret.

Mockups are indicative — the artwork supplied to each maker is vector, at full scale, in the single colour their process needs.

Rules of the house

Clear space

The height of the N on every side. On umbrella panels double it — the canopy curves away from the eye.

Colour

Cream on burgundy is the default, burgundy on cream the reverse. Brass is a hairline and a foil, never a fill.

Minimum size

Hairline marks (Heirloom, Seal, Lozenge, Arch) hold to 35 mm wide. Below that use Monoline, Band or Patch.

Don't

No outlines on the letterforms, no shadows, no stretching, no third colour, no rotating the mark off its baseline.
